Lake Mary, FL 32746

Inquiries and Responses to RFP Services

The following are responses to the inquiries received *during* the Proposer's Conference held on January 29, 2010.

Proposers may rely on these written responses as the official response deemed by the Early Learning Coalition of Seminole to be applicable to RFP-SR/VPK 1013-01.

1. Is there a cost for the on-line FAN (Florida After-School Network) training module?

Once available, the Florida After-School Network Assessment Training Module will cost approximately \$10.00 per staff member. Until the module is available, the Coalition will provide free training on the use of the Assessment.

2. What do you want on GIS map?

Children being served and waitlisted by County Commission, Senate and House Representative Districts.

3. Does the school system require any additional background screenings to go on their campuses for FAN assessments?

No, as long as the Early Learning Coalition of Seminole and the selected Proposer sign an agreement that Assessors will remain within the line of sight of Seminole County Public Schools while on school campuses, additional background checks will not be required.
