

# School Readiness Developmental Screening Provider Portal

Did you know that you are an important factor in child development?

Your relationship with the children in your class/center will impact the child's development in every way, that is why we need your help in keeping them developmentally on track. Each child (Birth-Kindergarten) enrolled in the School Readiness Program has free access to developmental screenings that can tell us if they are meeting their developmental milestones. We know that your answers will show the child's strengths and highlight any areas in which you may have concerns. The two screening tools used are the Ages and Stages Questionnaire 3 (ASQ-3) and the Ages and Stages Questionnaire Social Emotional (ASQ-SE).

## Tutorial Videos for Providers

### How to Complete Developmental Screening
