Quality Performance System
The Division of Early Learning

Welcome to the Division of Early Learning’s Quality Performance System (also known as QPS). QPS houses quality initiatives that are available to providers in the State of Florida.

Program Assessment
All School Readiness providers serving children birth to kindergarten entry must register for program assessment by completing the registration process.

Best Practices in Inclusive Early Childhood Education (BPiece)
BPiece provides a framework that builds a bridge between research on inclusion and practices in early childhood education settings.

Cost of Quality Tuition Calculator
The Tuition Calculator is intended to assist providers in determining the cost of care. This tool will allow analysis of actual expenditures against current and/or forecasted revenues to help inform program operations and tuition rates.

More Quality Initiatives
Contact your early learning coalition or the Division of Early Learning at qualityperformance@del.fldoe.org if you are interested in participating in any of these optional quality initiatives.
